**Website**

**Professional  
Profile**

Aspiring Full-Stack Developer with extensive experience in telecommunications and a strong background in fiber optic and copper network installation, configuration, and troubleshooting. Currently enrolled in a Full Stack Coding Bootcamp, where I have built dynamic full-stack web applications showcasing expertise in modern development practices. Proficient in programming languages, customer service, and problem-solving, with a proven ability to adapt and excel in challenging environments.

- Programming: JavaScript, TypeScript, HTML, CSS, Python
- Frameworks & Libraries: React, Node.js, Express.js
- Version Control: Git, GitHub
- Telecom Expertise: Fiber Optic Networks, T1/Data Circuits, VoIP, POTS Services
- Other Skills: RESTful APIs, Agile Development, OOP, Responsive Design

**Project  
Highlights**

- Designed and developed a fully functional website integrating front-end and back-end capabilities.
- Built responsive and dynamic user interfaces using React.
- Implemented server-side APIs and databases with Node.js, Express.js.

## **Experience**

### **March 2021 – Present**

Wire Technician, AT&T, Orlando, FL

- Install, troubleshoot, and maintain fiber optic and copper networks, including Cat5e, Cat6, and Cat6a cabling.
- Configure and repair modem, router, and network systems for business and residential clients.
- Ensure customer satisfaction by resolving issues and explaining services clearly.

### **July 2020 – December 2021**

Pharmacy Clerk, United Healthcare, Oviedo, FL

- Processed and shipped pharmacy orders while maintaining accurate drug inventory.

### **January 2018 – May 2019**

Delivery Driver, HD Supply, Orlando, FL

- Conducted vehicle safety inspections and ensured on-time deliveries for business clients.

### **February 2016 – December 2017**

Field Service Technician II, Spectrum, Ocoee, FL

- Repaired two-way cable plants and identified signal issues using diagnostic tools.
